

Video Game Builders 3D™

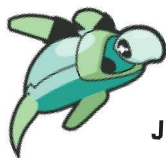

For new and continuing students in grades K-2 and 3-6

Wednesdays from 3:35 PM to 4:35 PM (10 weeks)
March 7, 2018 to May 23, 2018

Video Game Builders 3D™ empowers all children to create their own interactive video games! Children develop interactive storyboards to describe their game, creating physical representations of worlds and characters from their imagination. They transfer the logic and design into special video game creation software, and learn coding skills to manage behaviors and events! The result is a customized video game to play and share! Parents receive a link to projects and free software!

Create and play your own amazing video games!

New kid-friendly themes and activities every session!

Bring your imagination to life!
Join us for Video Game Builders 3D!
