

# Brick Racers™

Designed for students in grades K - 6

Thursdays from 3:30 PM to 4:30 PM (8 weeks)  
September 20, 2018 to November 8, 2018

In Brick Racers™, children design, build, and test remote-controlled wireless racers! They participate in design and building projects, individual and team races, obstacle courses, push and pull challenges, and a variety of brick racing fun!

To prepare for the various races and challenges, children can modify their brick racers for better stability, improved handling, or to create a new type of vehicle!

Build and take home your own remote-controlled brick racer!
