

# Drone Academy™

Designed for children in grades K - 6

Thursdays from 3:35 PM to 4:35 PM (10 weeks)  
September 28, 2017 to December 7, 2017

In **Drone Academy**, children learn to build, modify, and fly mini drones made with LEGO® bricks. They design and build landing pads and mission modules. They create maps and presentations to prepare for and reflect on their missions and challenges. They learn principles of aeronautics, weight and balance, and flight safety, while earning badges and awards!

Design, build, customize and test LEGO-compatible mini drones!

Drone Academy brings after-school and STEM education to a whole new level! Never before has so much learning been so much fun! Come join us after-school for Drone Academy!

New projects, challenges, and missions every session!

Learn valuable LEGO building and design skills while creating drones, challenge zones, and mission modules!

Special drone missions and challenges!

Can your drone get the minifig out of danger?
