

# Tech Builders™

Designed for students in grades 3 - 8

Wednesdays from 3:35 PM to 4:35 PM (9 weeks)  
March 11, 2020 to May 20, 2020

Tech Builders provides children with an opportunity to learn about computers and computer technology while getting hands-on experience. Component by component, children build a desktop PC. They learn basic troubleshooting procedures, and configure a variety of free software applications. At the end of the course, the PC is theirs to keep... they learned about and built themselves a brand new PC!

Microsoft®  
Windows® 10  
Operating  
System

Build and take home  
your very own
